

Energy Policy

Energy View : Triomya assimilates electrical power, human throughput, logical power, financial power, resource power and connectivity into energy.

Energy Cycle: Triomya commits to build cycles of energy to drive the company towards its mission. Each cycle includes energy production, storage, distribution and consumption.

Energy Awareness: Triomya conducts periodical energy awareness programmes for its people/public to refresh the knowledge on energy updates.

Green Energy Promotion: Triomya commits for green energy production, consumption and promotion.
